

High-Titer, One-Step Lentivirus Production

Achieve very high titers of 10^7 – 10^8 infectious units (IFU) per ml

Lenti-X Packaging Single Shots (VSV-G)
provide the highest titers (10^7 – 10^8 IFU per ml) and widest tropism

Lenti-X Packaging Single Shots (Ecotropic)
restrict tropism to cells of mouse and rat origin

Lenti-X Packaging Single Shots (Integrase Deficient)
produce VSV-G pseudotyped lentivirus that has a significantly reduced ability to integrate

Lenti Viral Titration Kits

Check your titer!

Lenti-X qRT-PCR Titration Kit

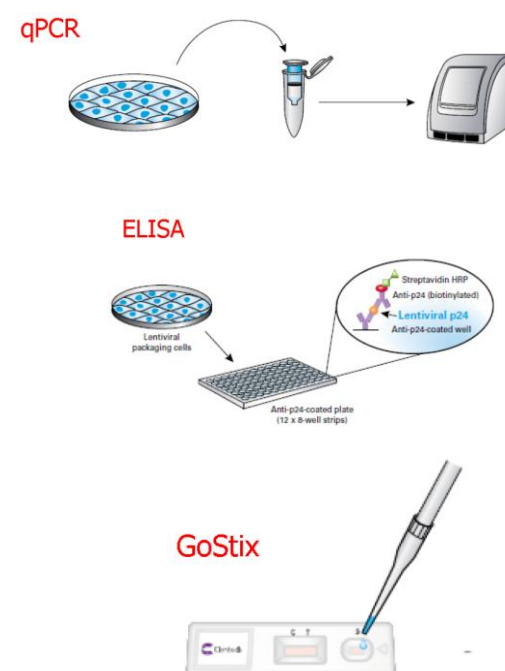

- Fast and accurate titration using SYBR[®] Green chemistry
- Obtain results in 4 hr

Lenti-X p24 Rapid Titer Kit

- Fast and easy ELISA-based titration protocol
- Correlate p24 capsid protein content to virus

Lenti-X™ GoStix™—Instant Titration

- Distinguish between good and bad preps
- Get a YES or NO in only 30 seconds
- Two bands mean you have $\geq 5 \times 10^5$ IFU/ml

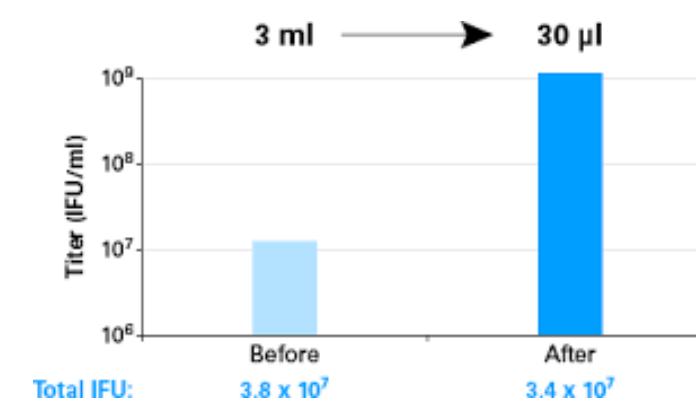

Lenti-X Concentrator

Concentrate your titer!!!

Why waste time on ultracentrifugation?
Concentrate your Lenti virus stock up to
100-fold in ~1 hr

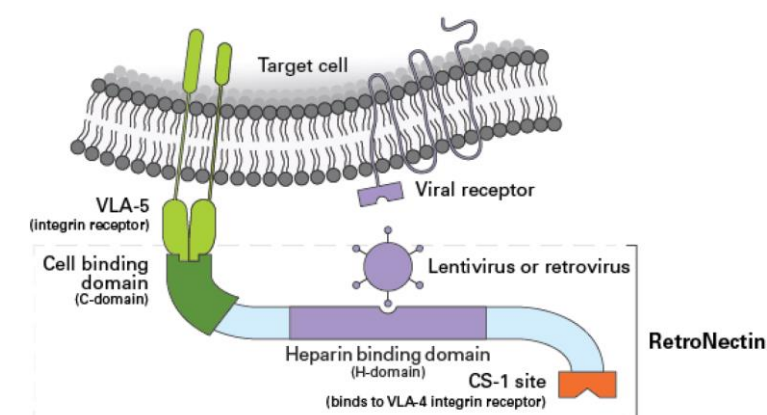

- 100-Fold Increase in Titer
- Far Simpler Than Ultracentrifugation
- Scalable for Supernatants of Any Volume, Any Titer

RetroNectin Reagent

Want to enhance transduction?
RetroNectin is the answer!

- Enhance viral transduction in hard to transfect cell lines
- Works with Lenti- and retroviruses
- Less toxicity than other commonly used enhancers like polybrene
- Widely used for hematopoietic cells and stem cells
- Available also in GMP grade

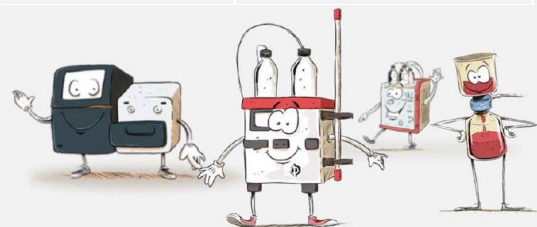

Cat#	Product	Kit Size
Lentiviral Packaging Systems		
631275 631276	Lenti-X™ Packaging Single Shots (VSV-G)	16 Rnxs 96 Rnxs
631277	Lenti-X™ Packaging Single Shots (Integrase Deficient)	16 Rnxs
631278	Lenti-X™ Packaging Single Shots (Ecotropic)	16 Rnxs
632180	Lenti-X 293T Cell Line	1 ml
Lentiviral Transduction Tools		
631231 631232	Lenti-X Concentrator	100 ml 500 ml
631233 631234	Lenti-X Maxi Purification Kit	2 preps 5 preps
631243 631244	Lenti-X GoStix	20 tests 50 tests
632200	Lenti-X p24 Rapid Titer Kit	Each
631235	Lenti-X qRT-PCR Titration Kit	200 Rnxs
631239	Lenti-X™ Provirus Quantitation Kit	200 Rnxs
631263	Lenti-X™ Integration Site Analysis Kit	Each
631471	Ecotropic Receptor Booster	20 Rxns
631254	Lenti-X Accelerator Starter Kit	96 Rnxs
T110A	RetroNectin Precoated Dish	10 dishes
T100A T100B	RetroNectin Recombinant Human Fibronectin Fragment	0.5 mg 2.5 mg
631256 631257	Lenti-X Accelerator	400 µl 1,000 µl
